LogiLink®

Art No. WC0004A

Wireless LAN Pan-Tilt IP MPEG4 Camera

This is a compact 1.3 Megapixel Network Camera with digital pan-tilt-zoom that enhances viewing and monitoring. The WC0004A uses 179 degrees Wide Angle Lens to view Horizontal: 128, Vertical: 99 degrees of the actual vision. WC0004A lets you move around using a smaller viewing window. You can even defi ne a preset path, and the camera will cruise along the path you defi ned. When you see something that catches your attention, this allows you to zoom-in to see the details and you won't miss even a tinny thing. It also allows you to do recording at the same time. The WC0004A is a powerful mobile surveillance system. When a motion is being detected, the IP camera is capable to capture the picture and send it to an Email or FTP server.

Specifications

- Supports IEEE 802.11 b/g Standards
- Supports IEEE 802.3, 802.3u, 802.3x Standards
- Supports WEP, WPA-PSK and WPA2-PSK for Security
- Supports Digital Pan/Tilt/Zoom Function via 179 Degree Wide Angle Lens
- Build in Microphone
- Views Real-Time Video via Web Browser
- Supports MPEG4, Motion-JPEG Video
- Supports Motion Detection and Snapshots the Triggered Event by E-mail and FTP
- Includes Easy-to-use Viewer up to 16 cameras & Recorder Utility
- Provides Manual Focus Lens, DDNS and UPnP Function
- Supports Digital Pan-Tilt-Zoom function via Wide Angle Lens
- Firmware Upgradeable
